Origin: Central Europe

**Ecology**

MAGNUM places a priority on complying with the highest environmental standards in our industry. We also apply these same standards to our suppliers. MAGNUM products are made exclusively with formaldehyde-free PVAC, 100% ecological lacquers and natural oils (for OIL surface treatment), and the entire production process is controlled and organised in a way which eliminates any negative impact on our environment.

**Stained Collection** – stained products collection in the exclusive shades of brown colour

**Stained products**

Wood staining in specifically chosen modern colours from a soft reddish colour to a dark brown mocca shade.

The minor colour variations easily fit into any interior design.

The stained layer is applied in a coverage of approx. 20 g/ m<sup>2</sup>; and using modern technology and innovative application techniques we achieve an even colour over the whole surface of the product.

We use entirely non toxic water based wood stain that contains no volatile elements.

The final surface treatment consist of 5 layers of highly resistant UV hardened lacquer.

**Dimensions and packaging**

**Dimensions:** 2 200 mm (Length)  
205 mm (Width)  
15 mm (Thickness)

**Quantity:** 6 pieces per package  
– 2.71 m<sup>2</sup>  
40 packages on a pallet  
– 108.4 m<sup>2</sup>

Every package of parquet contains instructions for laying and maintenance.  
**The weight of a pallet with dimensions 2 230 × 1 180 × 850 mm:**  
840 kg (1 848 lbs)

*The pallet is covered with several layers of protective foil.*

The photographs in this brochure are exclusively for illustrative purposes. Wood is a natural material and the photographs shown may not correspond exactly with the product supplied. Stained products are not suitable for re-sanding.
